Fun Shows: _____

Meeting Dates, Times, Length, Locations, Format: _____

Financial Management Issues:

Are you adequately informed of club finances? _____

Should we attempt to maintain our assets at current levels and budget each year to keep it this way? _____

Should we build our asset base to prepare for a future expenditure such as facilities or investment into a foundation or endowment or as seed money to host a major event? _____

Based on your comments above, what are your feeling about **Membership & Dues**? Do we have the right types of memberships? Are dues appropriate? Should "Life Memberships" have a termination date? _____

Maintaining and growing membership is important if we want to ensure future club stability. New members bring new ideas, possibly even new revenue (except we currently pay out more per member than we take in for dues). Do you feel that our membership needs to grow? _____ If so, how can we attract and retain members: _____

Corporate Issues:

TCSC, Inc. is a not-for-profit corporation that operates under a charter & by-laws that guide certain club operations within our basic Mission Statement. As such, we are a dues based organization, but it is up to the membership and board to establish and collect dues, as well as manage the assets of the corporation. Additionally, it is the charge and responsibility of the board of directors to make sure the club is responsive to the needs and desires of the membership. To be responsive to the members' desires, certain basic procedures need to be in place to guide the process. Please comment on the following:

Do You Have a Copy of the By-Laws? _____ If Not, Do You Want to See Them? _____

If You Have Read Them, please comment on them: _____

Do You Have a Copy of the TCSC Mission Statement? _____ If Not, Do You Want One? _____

Would you be willing to volunteer to join other members in a 1-2 hour process to help update by-laws, mission statement, and programming? _____

Other comments: _____
